

Creating an account with Oxford Abstracts and logging in

It's a very simple process to get you started with using Oxford Abstracts.

Before you can use Oxford Abstracts for submitting an abstract, or any other associated role, you will need to create an account with them.

You only need to do this once.

This will enable you to do everything that you need to do on the system, whether you are an account or event administrator, a submitter, reviewer, delegate or committee member.

You can choose to log in with Google, LinkedIn, or create an account with Oxford Abstracts with your email address, although we recommend you choose the latter option.

If you choose to log in with Google or LinkedIn, you will have the option to request a password creation email. You may want to do this if you decide you want to disassociate your Oxford Abstracts account with your third party one.

NB: If you have been invited to create an account by an event admin (e.g. as a reviewer, committee member etc), it is **IMPERATIVE** you **create an account using the email address specified in your invitation email**.

1. How to create an account with your email address

Go to: <https://app.oxfordabstracts.com>. Alternatively use the links on the [WCDP 2025](#) website to register as a Delegate or submit an Abstract.

Click on the **Create an Account** button.

 Continue with LinkedIn

Please note: event organisers will communicate to you about the event via your selected email.

[Issues with signing in?](#)

Next select **Continue with email**.

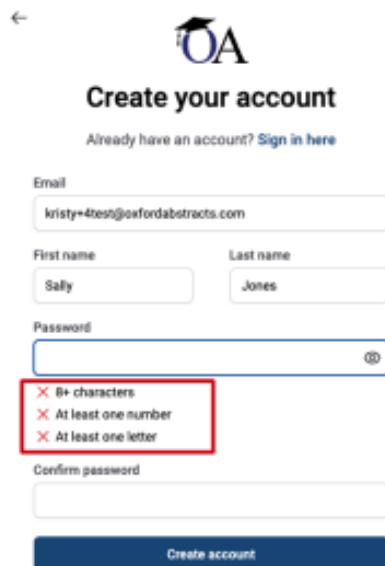

Sign up
 Already have an account? [Sign in here](#)

On the next screen you will be required to enter an email address, create a password and enter your name.

For your password you will need to include 8 or more characters, and it must include at least 1 number and 1 letter.

If you do not fulfill these requirements, you will not be able to create an account.

You will see Red Crosses under the password box informing you that your password needs to meet the requirements.

A verification email will automatically be sent to your email address you have used to create your account.

Verify your email

We sent an email to
kristy+4test@oxfordabstracts.com
Check your email to activate your account.

[Change the email address associated with this account.](#)

Have you not received our email? Please, look for it in your spam box. If you can't find it there, [click here for more information.](#)

NB: If you do not receive a verification email and you have checked your spam folder, please see what the next steps are in the: [What to do if a verification email hasn't arrived in your inbox](#) Knowledge base article.

Go to your inbox, open the email from Oxford Abstracts and click **Verify**. A new tab will appear in your task bar, and you will see the Oxford Abstracts sign in screen.

You will see that **your email** address will **automatically be entered** into the email box, and the **Keep me signed in box** will also be ticked.

All you need to do now is **enter your password** and click the **Sign In** button to access your account.

inbox.

3. How do I know which account I am logged in with?

When you are logged into your account, navigate to the top right of your screen and you will see the email address you have used to login with.

If you are using a mobile device, click on the icon with your initial to see your email address.

4. How does it work if I create an account with Google or LinkedIn? What email address will be used to create the account?

 A screenshot of the Oxford Abstracts sign-in page. At the top is the 'OA' logo. Below it is the heading 'Sign in to Oxford Abstracts' and a link 'New to Oxford Abstracts? Create an account'. There are input fields for 'Email' and 'Password'. Below the password field is a 'Forgot password?' link and a checked checkbox for 'Keep me signed in'. A blue 'Sign in' button is present. Below the button is the word 'or' and two social login buttons: 'Continue with Google' and 'Continue with LinkedIn'. These two buttons are highlighted with a red rectangular border. Below the social login buttons is a light blue note box that says 'Please note: event organisers will communicate to you about the event via your selected email.' At the bottom is a link for 'Issues with signing in?'.

If you have created an account using Google or LinkedIn, you will need to use the same method as above for signing into your account.

The **email address** that is assigned to your **Oxford Abstract account** will be the same email address that **you use for your Google or LinkedIn account.**

5. I have my Oxford Abstract Account set up. How do I register as a Delegate at WCDP 2023, or submit an Abstract for consideration?

Now that you have your account follow the instructions on the [WCDP 2025](#) website. The links are provided for Delegate Registration and Abstract Submission.

When you select these links they will invite you to login to your recently created Oxford Abstract account's personal dashboard, or, if you are already logged in it will take you automatically directly to either the Delegate Registration Form or the Abstract Submission form as appropriate.
